

CARLI STRAWLUXE BALES

Dust free cereal straw bedding for horse

100% STRAW FROM ITALIAN CEREALS

Gruppo Carli straw comes from cereals grown on Italian fields and processed by Group premises in Italy.

Hard and soft wheat, spelt and barley are cultivated with no use of chemical fertilizers, pesticide treatments and irrigation.

Carli Strawluxe bales bedding is completely natural and mechanically processed only: the cutting, the chopping and the compression into bales involves no additives or other substances.

Dusting prior to packaging makes the product ideal for allergic horses or ones having respiratory problems.

It is used as a natural, safe and eco-sustainable bedding for all equids.

Thanks to its 4,5 lt/kg absorption capacity, Carli Strawluxe bales captures liquids, granting horses the maximum comfort.

ORIGIN

Italy (Emilia Romagna region)

COMPOSITION

100% cereal straw (wheat, barley and spelt) GMO FREE

Sustainable bedding

Gruppo Carli employs own renewable energy in processing straw.

SHAPE AND PACKAGING

Fibre length 2 - 10 cm.

13 kg bales packed in recyclable plastic, pre-cut in 4 slices and delivered on pallets of 48 bales.

Bales dimensions: cm 30 X 60 H 30

Pallet dimensions: cm 125 X 100 H 255

INSTRUCTIONS FOR USE

1. Replacing an alternative litter - It is important to get used to the horse gradually to the new bedding: during the daily cleaning, integrate the old litter with small quantities of Carli Strawluxe until the full replacement within 7-10 days.

2. New box - Distribute one small bale of Carli Strawluxe every 4 square meters (4 bales per box). This quantity is indicative, it has to be tailored to your case depending on the material of the box floor. During the daily cleaning, remove only dirty parts and add new product as needed. Each 30 days remove completely the bedding, clean up the box and leave it open until the floor is completely dry. After re-covering the floor with straw, leave the box open for a half an hour in order to allow the dust to settle down before entering the horse.

Natural and highly absorbent, Carli Strawluxe is a wholly disposable equine bedding with no impact on the environment: it rapidly composts into nitrogen-rich manure.
