## PACKAGING

20 kg kraft paper bags  
on pallets of 60 bags

## Technical Sheet

### Product Description

Mid-sized (Ø mm 16–22) forage pellets of grass/alfalfa mixtures (Graminaceae: Phleum pratense, Lolium italicum, Lolium perenne, Poa pratensis, Dactylis glomerata, Bromus inermis, Bromus catharticus; Leguminosae: Medicago sativa), selected, naturally wilted or high-temperature dehydrated, cleared of dust and packed in sealed bags.

### General Nutritional Properties

CARLI Pellettone is the ideal basis for a balanced diet of horses and other equids thanks to:

- its high content of cellulose
- its good levels of crude protein and lysine
- its low levels of starch and sugar
- its proper Calcium to Phosphorus ratio

100% ITALIAN HAY, PROCESSED IN ITALY

### Feeding Guidelines

Feed a daily amount of minimum 2 kg of CARLI Pellettone per 100 kg of body weight (i.e. 10 kg or more per day for a 500 kg horse).

### Nutritional Specifications

CARLI Pellettone's main application is in the maintenance diet of resting or light-working horses.

The mid-sized pellets of CARLI Pellettone (dispensable by feeder) is particularly suited, after soaking, for those horses prone to choke and senior (16+ years old) animals affected by chewing issues.

Thanks to its low content of NSC CARLI Pellettone is the first-choice feed for horses and ponies prone to carbohydrates-associated disorders (laminitis, colic, equine metabolic syndrome, equine Cushing/PPID, chronic diarrhea, and gastric ulcers) or already suffering of such conditions.

*Italian origin* = quality and sustainability guaranteed

All ingredients used in the production of Gruppo Carli forages are sourced from Italian fields in the Emilia-Romagna region and processed in the company's own factories in Italy. Buying Gruppo Carli products for your horse means opting for forages made from equine-specific grasses. All Gruppo Carli horse line products are packaged in order to

ensure both effective handling and the best long-lasting preservation of its nutritional forage features (including vitamins and minerals) together with protection against sunlight, air and mould.
