

TOTALFEED MINI

FEEDING SYSTEM FOR RUMINANT

A **complete feed** for all **ruminant** species in the **juvenile stage** from post-weaning onwards:

- can be used on **cattle** up to 150 days of age;
- on **sheep and goats** up to the time before the first calving.

It can be a valuable feed base to complement grazing or other on-farm feeds. The majority of ingredients are **forages, alfalfa** in various forms and **grass hay**. **Totalfeed Mini** is formulated to ensure optimum nutritional contribution due to the high quality of the forages used in its composition. The forages also provide the structured fibre base necessary to stimulate **rumen motility** and promote **rumen morphological and functional enhancement**.

PACKAGING

- in bulk;
- 400/500 kg bales tied with iron wire;
- bales of approximately 25 kg wrapped in recyclable plastic, pre-cut into 4 portions and packaged in blocks of 48 bales on pallets.

Bale dimensions:
cm 30 X 60 H 30

Pallet dimensions:
cm 120 X 90 H 245

TIPS FOR CORRECT USE

On very **young animals**, particularly **kids and lambs**, it is advisable initially to break up the parts.

Then make the quarters available without altering their structure: this will limit the animals' natural tendency to select the components, making **ration intake more regular**.

If pasture is available, make the product available in the same way during housing: the animals themselves will self-regulate the ingestion.

In ad libitum feeding, the voluntary daily intake can be as high as 1.5 kg in small ruminants:

- **Small ruminants** to 1.0-1.2 kg;
- **Cattle** close to 150 days of age to 4-6 kg.

If a different use of the product is envisaged, we recommend that it be used under the guidance of a trusted technician, to whom Gruppo Carli will be happy to provide the technical details useful for the best use of the product.

SELF-PRODUCED Complete feed

- + purchase of raw materials
- + working time

- + storages
- + machinery

- + structural costs
- + financial commitment

- + risks
- + specialised labour

RATION
(UNIFEED)

VS

TOTALFEED CARLI Ready to use Unifeed

- single feed
- diversified phases

- + barn space
- + free time

- + management simplicity
- + hygiene in storage

- + well-being and productivity
